WILDLIFE REVIEW

NUMBER 154 SEPTEMBER 1974

UNITED STATES DEPARTMENT OF THE INTERIOR
FISH AND WILDLIFE SERVICE

BACK ISSUES

The following back issues of *Wildlife Review* are available in limited supply: *WR 104, WR 118, WR 125, WR 136, WR 146, WR 150, WR 151,* and *WR 152.*

Copies of *Wildlife Abstracts 1956-60* are also available on a first-come basis.

Wildlife Abstracts 1961-70 is at the printers. Regular subscribers will be notified when it is available.

WILDLIFE REVIEW

An abstracting service for wildlife management
Issued for the information of cooperators

Fish and Wildlife Service
UNITED STATES DEPARTMENT OF THE INTERIOR

September 1974 Patuxent Wildlife Research Center, Laurel, Md. 20811 No. 154

Use of funds for printing this publication approved
by the Director of the Bureau of the Budget, December 1, 1970.

Except as indicated, abstracts are by Kenneth J. Chiavetta, editor,
and Lillian H. Rummel, assistant editor.

AVAILABILITY OF REPRINTS AND PUBLICATIONS

Wildlife Review does not distribute any of the papers abstracted herein, nor can the editor of *Wildlife Review* undertake to obtain copies of these papers for anyone. A reprint of an article published in a journal may be available from the author, from the organization with which the author is affiliated, or from the publisher of the journal in which the article appeared. When an author's address is known, it is shown in square brackets following the citation. Addresses of most wildlife organizations can be obtained from the *Conservation Directory*, an annual publication available from the National Wildlife Federation, 1412 16th Street, N.W., Washington, D.C. 20036, at a price of $2.00 a copy. This directory lists more than 900 agencies and organizations concerned with natural resource use.

SOILS

Barnhill, William L., and others. SOIL SURVEY OF WAYNE COUNTY, NORTH CAROLINA. *U.S. Dep. Agric. Soil Conserv. Serv. Soil Surv.* i + 72 p., 13 figs. + single-fold maps based on aerial photos and bound in. June 1974. For sale by Supt. Documents, GPO, Washington, D.C. 20402. *WR 154: 2*

McNutt, Robert B., and others. SOIL SURVEY OF CLAY COUNTY, ALABAMA. *U.S. Dep. Agric. Soil Conserv. Serv. Soil Surv.* i + 46 p., 11 figs. + single-fold maps based on aerial photos and bound in. July 1974. For sale by Supt. Documents, GPO, Washington, D.C. 20402. *WR 154: 2*

Stone, Kenneth M., and others. SOIL SURVEY OF GARRETT COUNTY, MARYLAND. *U.S. Dep. Agric. Soil Conserv. Serv. Soil Surv.* i + 83 p., 9 figs. + single-fold maps based on aerial photos and bound in. Aug. 1974. For sale by Supt. Documents, GPO, Washington, D.C. 20402. *WR 154: 2*

GENERAL CONSERVATION

Jewell, P. A. PROBLEMS OF WILDLIFE CONSERVATION AND TOURIST DEVELOPMENT IN EAST AFRICA. *J. Southern Afr. Wildl. Manage. Assoc.* 4(1): 59-62. 1974. *WR 154: 2*
[Univ. London, Egham, Surrey, England]

BIBLIOGRAPHIES, DIRECTORIES, BIOGRAPHY, HISTORY

Eschmeyer, Paul H., and Van T. Harris. BIBLIOGRAPHY OF RESEARCH PUBLICATIONS OF THE U.S. BUREAU OF SPORT FISHERIES AND WILDLIFE, 1928-72. *U.S. Bur. Sport Fish. Wildl. Resour. Publ.* 120. v + 154 p. 1974. For sale at $2.30 by Supt. Documents, GPO, Washington, D.C. 20402. *WR 154: 2*
"This bibliography comprises publications in fishery and wildlife research authored or coauthored by research scientists of the Bureau of Sport Fisheries and Wildlife and certain predecessor agencies. Separate lists, arranged alphabetically by author, are given for each of 17 fishery research and 6 wildlife research laboratories, stations, investigations, or centers." More than 4500 citations.

PLANTS--GENERAL, ECOLOGY, TECHNIQUES

Harrington, G. N., and I. C. Ross. THE SAVANNA ECOLOGY OF KIDEPO VALLEY NATIONAL PARK. I. THE EFFECTS OF BURNING AND BROWSING ON THE VEGETATION. *E. Afr. Wildl. J.* 12(2): 93-105, 3 figs. June 1974. *WR 154: 2*
[CSIRO Rangelands Res. Unit, Deniliquin, New South Wales, Australia]

WILDLIFE--BIOTAS, ECOLOGY, NATURAL HISTORY

Bauer, E. A. THE FALKLANDS. *Sea Frontiers* 19. p. 279-289. 1973. [From Auk 91(2), 1974.] *WR 154: 3*
Overgrazing by sheep, introduction of alien predators, and overexploitation by man has reduced populations of birds and seals in the Falkland Archipelago, 260 miles southeast of Argentina. Author estimates that billions of penguins were rendered for oil since 1820. Recent establishment of wildlife sanctuaries for 61 species of breeding birds may lure tourists. Color photographs of endemic birds complement this well-written essay.

Jackson, H. D. FAUNAL NOTES FROM THE CHIMANIMANI MOUNTAINS, BASED ON A COLLECTION OF BIRDS AND MAMMALS FROM THE MUCRERA RIVER, MOZAMBIQUE. *Durban Mus. Nov.* 10(2): 23-42. 1973. [From Biol. Abstr. 58(3), 1974.] *WR 154: 3*
[Umtali Mus., Umtali, South Africa]

Schoener, Thomas W. RESOURCE PARTITIONING IN ECOLOGICAL COMMUNITIES. *Science* 185(4145): 27-39, 5 figs. 5 July 1974. *WR 154: 3*
[Harvard Univ., Cambridge, Mass. 02138] "Research on how similar species divide resources helps reveal the natural regulation of species diversity."

Shepard, Jean, and Daniel Shepard. EARTH WATCH / NOTES ON A RESTLESS PLANET. *Doubleday Inc.* (Garden City, N.Y.). 238 p., illus., 6.25 x 9.5 in. 1973. Price $8.95. *WR 154: 3*
"Direct from the files of the Center for Short-Lived Phenomena in Cambridge, Mass., comes this fascinating, illustrated catalogue of recent events that shatter the balance of nature and rival the most bizarre creations of science fiction." Included are accounts of events in earth sciences, biological sciences, astrophysics, and anthropology. Wildlifers will find the following of special interest: Extinction of the rare Kouprey ox: Cambodia, 1970; The Victorian mouse plague: Australia, 1969; The Malaysian frog war: Malay Peninsula, 1970; The Scotland neck blackbird irruption: North Carolina, U.S.A., 1969-70; The Appalachian squirrel migration: Southeastern U.S.A., 1968; Florida beached whale mortality: Florida, U.S.A., 1970; Oil spills and animal kills; and Gray fox epizootic canine distemper: New York, U.S.A., 1972.

Watson, G. E., and G. J. Divoky. PELAGIC BIRD AND MAMMAL OBSERVATIONS IN THE EASTERN CHUKCHI SEA, EARLY FALL 1970. *U.S. Coast Guard Oceanographic Rep.* no. 50. p. 111-172. 1972. [From Auk 91(2), 1974.] *WR 154: 3*

WILDLIFE--NATURAL AREAS & REFUGES

Chambers, Kenneth A. WILDLIFE OF CENTRAL PARK. *Conservationist* 28(4): 17-21, illus. Feb.-Mar. 1974. *WR 154: 3*
[Am. Mus. Nat. Hist., New York, N.Y.] Four species of resident mammals and more than 250 spp. of birds are recorded for this area.

WILDLIFE--NATURE PROTECTION & RARE & EXTINCT SPECIES

Holt, Francis T., and others. RARE & ENDANGERED SPECIES OF MISSOURI. *Mo. Dep. Conserv.* and *U.S. Dep. Agric. Soil Conserv. Serv.* 80 p. 1974. *WR 154: 3*
Annotated list of plant and animal species considered to be endangered, rare, status undetermined or extirpated.

Russ, Wayne P., and Robert E. Jenkins. ENDANGERED VERTEBRATES OF VIRGINIA. *Va. Wildl.* 35(9): 13-15, 18, illus. Sept. 1974. *WR 154: 3*
Popular account based on a thesis by Russ [*WR 153: 4*] and personal correspondence of Jenkins.

WILDLIFE--NATURE PROTECTION & RARE & EXTINCT SPECIES--Continued

Smith, H. G., R. K. Burnard, E. E. Good, and J. M. Keener. RARE AND ENDANGERED VERTEBRATES OF OHIO. *Ohio J. Sci.* 73(5): 257-271, illus. 1973. [From Biol. Abstr. 58(2), 1974.] *WR 154: 4*
[U.S. Soil Conserv., Columbus, Ohio 43215] An annotated list of Ohio's rare and endangered vertebrate species, was compiled to supplement a similar national list and includes 10 mammals, 62 birds, 10 reptiles, 4 amphibians and 33 fishes.

WILDLIFE--MORPHOLOGY, PHYSIOLOGY, BEHAVIOR, MIGRATION

Gold, Albert. ENERGY COST OF ANIMAL LOCOMOTION. *Science* 184(4141): 1098. 7 June 1974. *WR 154: 4*
[Rockefeller Univ., New York, N.Y. 10021] Energy costs of walking, flying and swimming are compared.

Moen, Aaron N., and Frederick L. Jacobsen. CHANGES IN RADIANT TEMPERATURE OF ANIMAL SURFACES WITH WIND AND RADIATION. *J. Wildl. Manage.* 38(2): 366-368. Apr. 1974. *WR 154: 4*
[Cornell Univ., Ithaca, N.Y. 14850] *"Odocoileus virginianus, O. hemionus,* and *Vulpes fulva."*

Schoene, Hermann. VERHALTEN UND ORIENTIERUNG. [BEHAVIOUR AND ORIENTATION.] *Z. Tierpsychol.* 33(3/4): 287-294, illus. 1973. [From Biol. Abstr. 58(3), 1974. In German with English summ.] *WR 154: 4*
[Max-Planck-Inst. Verhaltensphysiol., D-8131 Seewiesen, West Germany]

Simkin, G. N. [IMPRINTING AND MODIFICATIONAL FORMS OF ANIMAL BEHAVIOR.] *Zool. Zh.* 52(10): 1437-1450. 1973. [From Biol. Abstr. 58(3), 1974. In Russian with English summ.] *WR 154: 4*
[Moscow State Univ., Moscow, USSR]

Zech, R., and K. Zürcher. ORGANOPHOSPHATE SPLITTING SERUM ENZYMES IN DIFFERENT MAMMALS. *Comp. Biochem. Physiol.* 48B(3): 427-433, 7 figs. 15 July 1974. *WR 154: 4*
[Univ. Göttingen, D-34 Göttingen, West Germany]

WILDLIFE--POLLUTION

Adams, A. W. EFFECTS OF NITRATE IN DRINKING WATER OF JAPANESE QUAIL. *Poultry Sci.* 53(2): 832-834. Mar. 1974. *WR 154: 4*

Osterhoff, D. R., and J. Op't Hof. GENETIC MARKERS IN WILD ANIMAL STUDIES. *J. Southern Afr. Wildl. Manage. Assoc.* 4(1): 71-73. 1974. *WR 154: 7*
[Univ. Pretoria, P.O. Onderstepoort 0110, South Africa] Abstract: A survey is given of the work performed in the Onderstepoort laboratory on the studies of genetic markers in wild animals. The implications of using genetic markers reflecting single gene changes in animal studies are discussed. Preliminary results indicate that certain wild animal populations are genetically less variable than others, and the consequences are discussed. If this phenomenon should be substantiated by further investigations, then certain corrective measures to ensure the survival of certain animal groups or even species would be desirable.

Barash, David P. NEIGHBOR RECOGNITION IN TWO "SOLITARY" CARNIVORES: THE RACCOON *(PROCYON LOTOR)* AND THE RED FOX *(VULPES FULVA)*. *Science* 185(4153): 794-796. 30 Aug. 1974. *WR 154: 9*
[Univ. Wash., Seattle 98195] Abstract: Male raccoons and red foxes were trapped alive and exposed to each other in captivity. Animals of each species trapped close to one another demonstrated a higher frequency of initial dominance-subordinance relationships and lower frequencies of more intense aggressive interactions than did animals trapped at greater distances from each other. This suggests the existence of neighbor recognition and thus a rudimentary social structure within these free-living "solitary" species.

[N.Y. Coop. Wildl. Res. Unit, Ithaca] Abstract: Male *Arvicola richardsoni* (Rodentia: Muridae), observed in the laboratory, scent-mark by raking their hind feet over their flank glands. This behavioral pattern has been seen in the Palaearctic *A. terrestris* but not, as yet, in any species of the genus *Microtus*. The observation supports the placement of this species in the genus *Arvicola*.

[Univ. Utah, Salt Lake City 84112] Abstract: Conditioned aversions were induced in coyotes by producing lithium chloride illness in them following a meal, and the effects upon eating and attack behavior were observed. One trial with a given meat and lithium is sufficient to establish a strong aversion which inhibits eating the flesh of that prey. One or two trials with a given flesh (lamb or rabbit) specifically suppresses the attack upon the averted prey but leaves the coyote free to attack the alternative prey. A method of saving both prey and predator is discussed.

[N. Mex. State Univ., Las Cruces 88003] This report describes populations and nesting habitat of birds in shrub-grassland in southeastern New Mexico from April, 1969 through mid-June, 1973. Fifty-nine species representing 11 orders and 24 families were observed. Forty-six species were adapted strictly to terrestrial habitats. Of these, 32 species were adapted specifically to habitats containing woody plants (shrubs or trees), six to grassland, and eight to a variety of habitats. In addition to the 46 terrestrial species, 13 species of wetland birds were observed.--From summ.

[State Univ. N.Y., Stony Brook 11790] Abstract: Homing pigeons were equipped with a pair of small coils around their heads. Birds with an induced field of 0.6 gauss and the south magnetic pole up, oriented toward home normally under both sun and overcast. Birds with the polarity reversed oriented toward home when the sun was visible but often flew away from home under overcast.

Schroeder, Lonnie D. A LITERATURE REVIEW ON THE ROLE OF INVERTEBRATES IN A WATERFOWL MANAGEMENT. *Colo. Div. Wildl. Spec. Rep.* 29. vi + 13 p., 1 fig. 1973. *WR 154: 49*
Specifically, this review deals with the assertion that egg-laying hens, ducklings and molting adults cannot obtain necessary protein requirements entirely from plants; consequently, invertebrates are sought as a supplementary

protein source. Primary areas addressed are: waterfowl food habits research; invertebrate consumption by waterfowl; factors influencing invertebrate distribution and abundance and invertebrates are related to waterfowl management. Suggestions and precautions to be taken in managing wetlands are given in light of invertebrate-waterfowl relations.

As the Nation's principal conservation agency, the Department of the Interior has responsibility for most of our nationally owned public lands and natural resources. This includes fostering the wisest use of our land and water resources, protecting our fish and wildlife, preserving the environmental and cultural values of our national parks and historical places, and providing for the enjoyment of life through outdoor recreation. The Department assesses our energy and mineral resources and works to assure that their development is in the best interests of all our people. The Department also has a major responsibility for American Indian reservation communities and for people who live in island territories under U.S. administration.
